Lake Enhancements • Shaping • Drainage Enhancements • Irrigation • Better Billy Bunker Installation • Cart Path  
Finish Work • Seedbed Preparation • Grassing • Landscape & Desert De-Vegetation • Construction Management • Budget & Schedule Assembly

## ABOUT

Based in Scottsdale, AZ, we have significant experience and expertise, with a proven track record in ensuring that all of our projects are performed to the highest standards, on time and within budget. Equally important is the pride we take in our ability to adapt to any fluctuations which may surface within those circumstances, so that the quality of the end-product is preserved, buying power of the dollars spent is maximized and critical dates are met.

Our small company culture combined with our large scale resources allows us the following:

- To be competitive in our pricing structure prior to and during construction
- To be adaptive to the needs of our client during construction
- Enhanced buying power via national accounts and associated discounting
- Affordability for facilities from municipalities to top tier clubs
- To provide a wealth of experience, capabilities and high quality workmanship
- To complete projects of any size, no matter how ambitious

With strong ties to the management, operational and maintenance sides of the industry, our broad spectrum of experience gives us an advantage over our competitors by providing a unique perspective and understanding of our client's needs and expectations. As a result, we have a greater ability to anticipate, gauge and react to possible impacts generated through the construction phase upon the eventual operation and maintenance of the facility.

## RECENT PROJECTS

## TESTIMONIALS

“Casa Verde Golf was tasked with renovating all of our greenside bunkers, which were continually the most complained about feature by our patrons. Since the renovation, our rounds have steadily increased and the bunkers have become the cornerstone of our facility’s reemergence within the City of Tucson’s portfolio.”

*Reuben Proper, Superintendent - Silverbell Golf Course*

“Casa Verde Golf was hired to undertake a site-wide drainage enhancement project which was critical to the resurgence of our facility’s success. Every single day, they performed to the highest standards while also providing what became invaluable insight along the way. A large part of our success this year will be due to Casa Verde Golf’s efforts.”

*Bret Greenwood, General Manager - Eagle Mountain Golf Club*

“The team at Casa Verde Golf truly understands all aspects of course design and construction. This really helps bring a renovation project together from start to finish.”

*Todd Schoeder, Principal Architect - iCon Golf Studio*
